INDEX.

NOTE.—The numbers following the titles of articles are the pages of Volume IV. Those in parenthesis are the numbers of the minor planets.

A.

Page.

Astronomical Journals..... 17
Argelander's Durchmusterung, 28
Astronomical Clocks..... 28
Algol's Minimum.....31, 53
Astronomical Date, Change of, 54
Astronomical Papers.....63, 192
American Journal of Mathematics..... 64
Aerolite, Fall of..... 94
A. A. A. S., Ann Arbor Meeting, 120
Aurora Borealis..... 124
Analytical Geometry, Notice of, 127
Annular Eclipse..... 147
Asteroids, Nos. (245), (246), (247), (248)..... 157
Astronomical Cipher Messages, 161
Ancient Catalogues in Meridian Photometry, from Annals of H. C. Observatory..... 163
A Remarkable Meteor..... 218
Aurora Borealis, Beloit Observatory..... 236

B.

Brooks, W. R.....
26, 54, 91, 177, 186, 240, 246, 247
Barnard, E. E.....
30, 53, 124, 158, 179, 217, 223, 247, 252, 253, 308, 314, 316
Book Notices.....
32, 64, 96, 127, 160, 255, 316
Bessey's Botany..... 32
Bowman, C. G..... 123
Bardwell, Miss E. M..... 126
Barnard's Comet, Observations and Elements..29, 179, 184, 186, 189, 217, 219, 222, 248, 252
Burckhalter, Charles..... 186
Borst, Charles A..... 189
Burnham, S. W..... 193
Books Received..... 256
Brown, W. V..... 305

C.

Comet Wolf, Ephemeris of... 27
Comet, Tuttle's, 1885.....28, 251
Chaney, L. W..... 128
Comet Wolf, Observations of, 58
Calculus, Taylor's Elements..
64, 160
Corrigan, S. J..... 93
Chapin, R. C..... 94
Cordoba Observatory..... 94
Comet 1867 (II), Possible Discovery of..... 94
Curve Tracing by Johnson... 96
Change of Latitude at Willet's Point 129
Comet Meteor Radiants..... 153
Commensurability of Motions, 200, 257
Coakley, G. W..... 207
Comet Brooks.....246, 252
Chicago Tribune..... 248
Coast Survey Irregularities... 248
Chronograph Pens..... 315

D.

Designation of Recent Comets..... 5
Distribution of Stars in Northern Hemisphere.....33, 56
Doolittle, C. L..... 58
Downey, J. F..... 93
Davidson Observatory..... 152
Death of Rev. T. W. Webb.... 154
Doberck, Dr..... 155
Denning, W. F.....156, 259
Davidson, Prof. G..... 186
Doolittle's Practical Astronomy.....255, 231

E.

European Observatories, Reports of..... 8
Encke's Comet, Observations of 24, 53
Ecliptic Charts of Paris Observatory, Index to 54 Published Reports..... 45
Eclipse of the Moon, March 29-30 .....60, 88
Editor.....150, 161, 167
Evening Bulletin (Philadelphia)..... 155

Errata 192, 307
Eclipses for Young Students, 205
Eadie, John R..... 298
Eclipsed Moon, Color of.... 311

F.

Falling Bodies, Laws of..... 15
Faint Stars for Standards of Stellar Magnitude..... 24
Franklin, S. R.....54, 60, 123, 185
Face of the Sky.....54, 158, 191
Frisby, E.....123, 185, 222
Ferguson, R. Henry.....238, 261

G.

"Gegenschein".....30, 57, 124
Gildersleeve, Geo..... 31
Gould's General Catalogue of Stars..... 52
Gautier, Dr..... 94
Gold Medal of R. A. S..... 95
Geology, Le Conte's Compend of..... 128
George, T. C..... 191
Galle's Catalogue of Comets.. 264

H.

Hagen, J. G.....15, 286
Hohwu, A..... 28
Holden, E. S.....29, 30, 36, 46, 55, 60, 118, 125, 251, 288, 315
Hough, G. W..... 30
Hopkins, B. J..... 49
Howe, H. A.....64, 205
Harrington, M. W..... ...83, 91
Hooper, J. R..... 90, 179, 190, 191, 247, 248, 251
Heliometer, For Sale..... 95
Huggins, W..95, 136, 157, 167, 283
Hall, A.....97, 123, 153, 200
Haynes, A. E..... 121
Halley's Comet..... 182
Harvard College Observatory Report..... 189
Holetschek, Dr..... 217
Haywood, John..... 243
Habitability of Other Worlds, 274

I.

International Meridian Conference..... 15
Indiana State Astron. Society, 28
Israel, Edward..... 83
Indefinite Astronomical Reports..... 89
Irish, C. W..... 181
Intra-Mercurial Planet..... 190

J.

Jacobs, C. P..... 28
Johnson, W. W..... 95
Jupiter's Satellite (IV)..... 124, 186, 155
Jupiter's Satellite (III)..... 158
Jupiter and Venus Near Each Other..... 247
John, D. P..... 254

K.

Kirkwood, Daniel, 65, 114, 225, 257
Keeler, J. E..... 311

L.

Lunar Red Light..... 26
Large Nebula, Observation of, 26
Lick Observatory.....46, 288
Longitudes, South American, 55
Lacaille 8802, Magnitude of.. 60
Limits of Stability of Nebulous planets..... 65
Leander McCormick Observatory, Opening of..... 122
Legal Standard of Time for Wisconsin..... 125
Lamb, Miss Alice M..... 129
Lalande 16616, Proper Motion of..... 185
Longitude by Moon Culminations..... 231

M.

Morrison, Dr..... 29
Minor Planet, discovered by Borrelli..... 94
Minor Planet, rediscovered by Palisa..... 94
Mars' Diameter..... 94
Mack, Miss I. G..... 126
Mass of Uranus..... 153
Monthly Notices, R. A. S.... 155
Maunder, E.W., in Observatory, 157
Meteor Observations..... 177
Mathews, H. E.....188, 219
Moore, H. S..... 247
Merope Nebula.....251, 311
McKim Observatory..... 305
Monoceros, Great Nebula of.. 313

N.

Nebulae, The.....1, 36, 155
Nebula of Orion, Discoverer.. 52
Nebula in Eridanus, New... 53
New Star of 1572..... 81
Nebulæ, New and Old..... 124
Newcomb, S..... 127

Nebulæ Discovered at Warner Observatory 174
New Star in Nebula of Andromeda 240, 246, 247, 248, 280, 281, 285, 287
Numsen, W. H.....278, 301
Nebula of Andromeda 298, 301, 315, 316
Nova Andromeda..... 308
New Star..... 312

O.

Occultation Observed by Gilliss at Santiago 18
Observers of Saturn, Hints to, 49
Orbits of Meteors..... 55
Observatory at Hong Kong, Report of..... 88
Occultation of the Sun, Obs. Hillsdale College..... 121
Observatory at Warschan.... 156
Observatory 156
Observations of Sirius..... 157
Occultation of Alpha Tauri... 187, 191
Observatory at San Jose, Cal, 191
Occultation of the Hyades.... 286

P.

Parkhurst, H. M.....23, 273
Pickering, E. C.....24, 94
Proper Motion of Lacaille 239, 30
Perry, S. J..... 51
Perry, A. C.....53, 55
Proper Motion A. O., e. (2) 15647..... 55
Proctor, R. A..... 56
Porter, J. G.....90, 187, 188, 219
Pearson, A. H..... 91
Pritchett, C. W..... 94
Palisa, M..... 96
Payne, W. W..... 110
Paul, H. M..... 123
Photometric Measurements at H. C. Observatory of Faintest Stars in Charts by Palisa, 133
Pons-Brook's Comet, Obs. of, 152
Photographing the Eclipse,.. 181
Practical Photographer..... 182
Pall Mall Gazette..... 182
Proper Motions, Table of..... 183
Paris Observatory, Report of.. 187
Photographs of Lick Observatory..... 188
Planets 223, 255
Photographing the Solar Corona.....235, 283
Pickering, W. H..... 283
Parallax of 61 Cygni..... 284
Pavey, H. A..... 287

Q.

Queries.....63, 95, 314

R.

Reports of European Observatories for 1883..... 8
Reports of Committee on Standards of Stellar Magnitude..... 20
Right Ascension Circle..... 23
Red Sunsets, Reappearance of, 24
Report of Dearborn Observatory, Notice of..... 30
Riheldaffer, Miss Mary..... 78
Recently discovered Asteroids, 114
Red Spot on Jupiter..... 119
Rockwell, C. H..... 147
Right Ascension of Moon at Hong Kong..... 155
Reflecting and Refracting Telescopes..... 156
Reports of European Observatories 212
Remarkable Meteor 218
Roxbury Advocate..... 240
Roller Planimeter..... 249
Recent Discoveries..... 250
R. Coronæ..... 251
Recent Star Showers..... 299
Roman College Observatory, Italy 313

S.

Swift, Lewis.....1, 26, 43, 57, 174, 217, 218, 248, 251, 252
Standards of Stellar Magnitude, Report of A. A. A. Committee 20, 43
Southern Nebulæ..... 30
Sun-Spot Period..... 31
Subscribers, List of..... 31, 62, 96, 126. 160, 190, 254
Seeliger, H..... 33
Sun's Chromosphere..... 51
Saturn's Rings, Changes Observed..... 78
Solar Eclipse of March 16.... 90, 91, 93, 94
Schaerberle..... 90
Simonton, Dr. D. T..... 93
Stellar Parallax..... 95
School of Practical Astronomy, Willet's Point, N. Y. Harbor, 116

Solar Eclipse, March 16, Princeton Observatory..... 120
Solar Eclipse, March 16, U. S. N. Observatory.....123, 124
Solar Eclipse, March 16, John P. Williston Observatory... 126
Solar Eclipse, March 16, Lick Observatory 219
Observatory, S. Hadley, Mass., 126
Solar Corona.....136, 167
Sun and His Phenomena, Book Notice..... 160
Sun-Set Glow..... 178
Solar Eclipse, March 16, at Iowa City..... 181
Smyth, C. Piazzi..... 187
Stars With Large Proper Motion..... 188
Spectra and Color of Stars.... 189
Small vs. Large Telescopes.. 193, 259
Shearman, T. S. H..... 236
Sun Spots.....238, 261
Small Nebula in Andromeda Nebula 247, 251
Sawyer, E. F..... 251
Science Observer 251
Stellar Photometry..... 273
Serviss, G. P..... 313
Seven Place Tables..... 316

T.

Tatlock, J., 18, 27, 88, 94, 156, 236, 287
Trouvelet, M. E. L..... 78
Tycho Brahe..... 86
Telegraphic Message..... 94
The Instruments and Work of Astronomy 97
The Star of Bethlehem..... 110
The Constellations..... 150
The Endowment of Litchfield Observatory 202
Tables for Eclipses, Coakley, 207
The Comet of 1866 and Meteors of Nov. 14..... 225
Titles to Articles in Astronomical Periodicals..... 249
The Red Spot on Jupiter 289
Temperature Moon's Surface, 310

U.

Universal Day..... 88

V.

Vienna Refractor, Vogel's Opinion of..... 29
Visible Shadow of the Earth, 242
Variation in Nebula of Andromeda..... 278

W.

Winlock, W. C.....5, 123, 264
Wilson, H. C.....52, 90, 316
Wendall, O. C.....55, 154
Work at the U. S. Naval Observatory for 1885, Programme of..... 60
Warner Astronomical Prizes, 61
Warner, H. H..... 62
Wacoochee 87
Wines, Levi 90
Webb, Rev. T. W..... 154
Weight of Large Object-Glasses 288
Washington Astronomical Observatory, 1881, Notice of,.. 309

Y.

Young, C. A..24, 119, 121, 126, 283

ILLUSTRATIONS.

Motion and Velocity of Falling Bodies..... 16
Map of Faint Stars for Standards of Stellar Magnitude..... 24
Sun-Spots..... 31
Swan Nebula..... 38
Solar Eclipse, March 16, 1885..... 92
Appliance for Photographing the Solar Corona..... 141
Photographs of Solar Eclipse at Lick Observatory..... 219, 220
Comets and November Meteors..... 203
Nebula of Andromeda..... 241
Roller Planimeter..... 250
Nova in Andromeda and Companion Stars 279
